## LOCATION & REMOVAL

Installation is made at the front unit.

First remove the A/C vent by inserting a trim tool at the bottom and at the top behind the Rubber pads (1).

Next pull out and unplug the A/C vent (2).

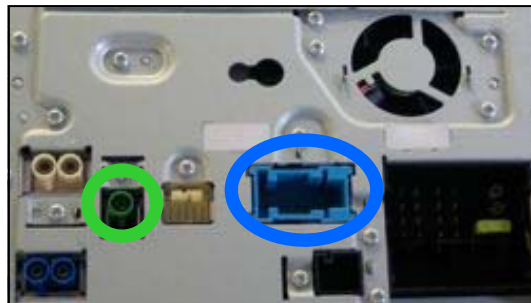

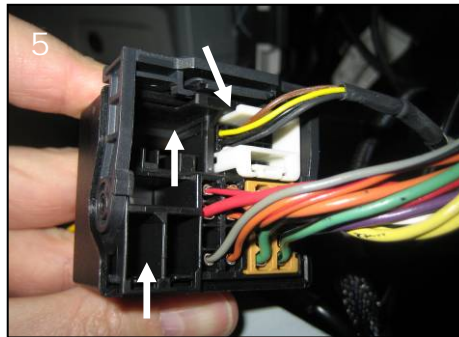

Locate the two screws at the top of the Radio unit and remove (3).

Lastly slide the Radio locking pins upwards to release the Radio unit (4)

## INSTALLATION

Remove the “Quadlock” connector (5) from the unit and plug it into the supplied harness, plug the supplied harness into the unit. Some additional plugs will need to be transferred to the supplied loom from the male factory connector e.g. the fibre optic plug and white plug (shown below with white arrows)

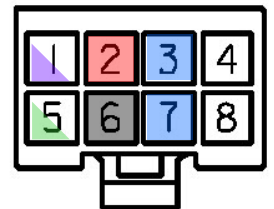

## INSTALLATION

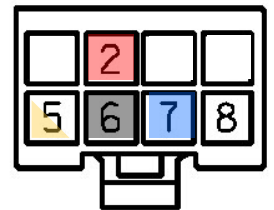

Next plug in the supplied Fakra cable into the **Green** socket, circled green opposite, for Video or camera input.

Plug in the supplied **Blue** 18 way harness into the **Blue** socket, circled blue opposite, for Audio input.

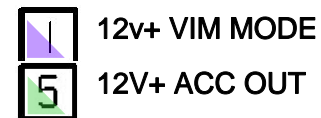

Connect the *W204-M* Interface to the 8 way plug of the “Quadlock” harness matching;

PLUG NOT USED →

The following additional **outputs** are added  
(do not exceed 500mA max)

**BLACK** = 12V– GROUND  
**RED** = 12V+ PERMANENT

Before the “programming” step in **OPERATING INSTRUCTIONS**, after installation is complete remove the key for 30 seconds before re-entering and turning to full ignition position. (not engine started)
