LOCATION & REMOVAL

1. All connections are made at the screen Unit in the front of the vehicle

The unit is removed using 4 AUDI/VW removal keys.

Removing the unit without the correct keys may cause damage and problems when re-fitting the unit.

INSTALLATION

CAN HIGH cable is ORANGE/GREEN (pin 9)

CAN LOW cable is ORANGE/BROWN (pin 10)

Remove “QUADLOCK” connector (fig01) from unit and plug into NAVTV harness, plug NAVTV harness into unit. Some additional plugs will need to be transferred to the NAVTV loom e.g. the fibre optic plug and white plug (shown below with white arrows)

When the “Video in motion” feature is active the Navigation may become slightly inaccurate. To solve this the DOUBLE PRESS the VOLUME button, to de-activate the “video in motion” feature when using the navigation.

OPERATING INSTRUCTIONS

When the “Video in motion” feature is active the Navigation may become slightly inaccurate. To solve this DOUBLE PRESS the VOLUME button of the steering wheel controls, the unit will then display the safety message and it will no longer be possible to view TV on the move. To re-activate repeat the process.
