LOCATION & REMOVAL

Installation is made at the factory TV Tuner,
Locate TV Tuner box in rear of vehicle:

RANGE ROVER

ROVER 75

INSTALLATION

1. Remove the white Plug from the white Socket located on the TV Tuner box,
 2. Insert the NAV TV A/V input-output loom into the white Socket on the TV Tuner,
 3. Insert the BMW white Plug into the NAV TV A/V input-output loom,
 4. Connect audio and video connections as required;
(Audio / video inputs and outputs are labelled)
 5. Connect your camera output to the socket labelled CAMERA IN
- To activate the camera input you will need to supply a NEGATIVE feed to PIN 17 on the BLUE plug on the TV Tuner, see diagrams;

CAMERA IN

PUT IS IN NTSC FORMAT ONLY

OPERATING INSTRUCTIONS

To select your added A/V input you will need to select Television, then from the program list (in the blue banner) select the A/V channel below channel 1.

The camera input will appear over any source on the screen when the reverse gear is selected. (provided the installation is made as directed)
