## LOCATION & REMOVAL

Installation is made at the factory TV Tuner,  
Locate TV Tuner box in rear of vehicle:

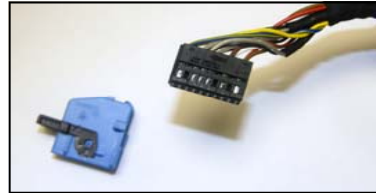

## INSTALLATION

Locate the TV Tuner,  
Locate the **Blue plug** and remove it from the factory tuner.

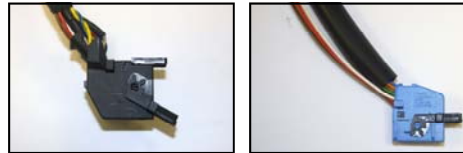

Next remove the **Blue outer casing** from the factory blue plug harness.

Then fit the supplied **Black outer casing** and locking slide to the factory harness.

Next fit the factory **Blue outer casing** to the supplied **VIM-ROV**.

Now you are able to insert the **black plug** to the **black socket** and **blue plug** to the **blue socket**.

## OPERATING INSTRUCTIONS

The VIMROV has a feature that enables you to activate and de-activate the “video in Motion” feature by pressing and holding the Auto reverse button (circled below) for 3 seconds.

The VIMROV also enables you to switch between audio sources. Using the same auto reverse button, when pressed the system will revert back to the previous audio source used. For example; if when listening to radio you switch to TV to listen and view TV when the Auto reverse button is pressed the system will revert back to radio audio whilst viewing TV picture.

Lastly the VIMROV will enable you to use your steering wheel controls to change TV tuner channels.
