

INSTALLATION

Other connections (on all cars)

YELLOW to 12v+ ignition / accessory
BLACK to 12v- ground
BLUE to 12v+ to activate camera input

Rear of supplied plug

									
NAV (Input)		16	15	14	13	12	11	10	9
SCREEN (Out)		8	7	6	5	4	3	2	1

OPERATING INSTRUCTIONS

The video input is auto video sensing, when your additional source is switched on the picture will override the navigation map picture. It will revert back to the navigation picture when your source is switched off.

The second input (Camera Input) is activated when the Blue cable is made live (adding a 12v+ supply) This input will override the additional source or the navigation map when activated.
